

task\_share.BaseShare

```
classDiagram
    class task_share_BaseShare["task_share.BaseShare"]
    class task_share_Queue["task_share.Queue"]
    class task_share_Share["task_share.Share"]
    task_share_Queue --|> task_share_BaseShare
    task_share_Share --|> task_share_BaseShare
```

The diagram illustrates a class hierarchy. At the top is the class 'task\_share.BaseShare'. Below it are two classes: 'task\_share.Queue' on the left and 'task\_share.Share' on the right. Both 'task\_share.Queue' and 'task\_share.Share' have arrows pointing upwards to 'task\_share.BaseShare', indicating that they inherit from it. The classes are represented by rectangular boxes with black borders and white backgrounds. The text is in a black serif font.
